FOREWORD

Welcome to our 8th Annual on farm Ram Sale. We are very pleased with the line up of rams we are putting on offer this year.

To you who have been up here before, can see the rams have been born and bred in a challenging environment and this year hasn't been any different. All the rams have been vet tested and palpated.

Again we are running the auction ourselves. Neville Clark will again be the auctioneer.

We would like to thank everyone for their support in the past and we look forward to seeing you again this year even if you do not require any rams. We look forward to catching up with you at the sale and the usual BBQ and refreshments will follow.

Regards,

Simon Prouting

Enquiries and inspections are welcome anytime before the sale.
Please don't hesitate to ask for an honest and reliable opinion regarding the rams.

SIL – Understanding the EBV's

Basically, the higher the EBV's the better.

- TSO** – Terminal Sire Overall index.
- TSORK** – Where the animal is ranked in the flock, from all lambs born. **WWTBV** – Taken from the Weaning Weight.
- LW8BV** – Taken from the scan weight to measure growth from weaning. **EMABV** – Taken from the eye muscle area at scanning time.

If you want to focus on getting lambs killed at weaning, you may want to focus on the **WWTBV** and **EMABV** but don't ignore the actuals as SIL is just a guide.

EMA/LW RATIO – e.g .30 is a simple formula of EMA divided by Liveweight at scanning. It is a good sound tool, the higher this is the better for real width across the loin, to enable high yeilding lambs. This is a tool I always use when buying stud sires.

For more information or a better understanding of this, you could talk to me on sale day or give me a call before the sale.

AUCTION ORDER

In the Poll Dorsets Lot's 1-10 will be offered as singles. In the South Suffolks Lots 1-12 will be offered as singles. After this the rams will be offered in pairs, if you win the auction you have the right to choose one of the rams or both.

NOTE:

Some of the South Suffolk rams have been footscored, those numbers will be on display at the sale.

FOOTSCORE CHART - Footrot Gene-Marker Test

Agents will be payed out at 6% commission on commercial rams and usual rates on rams that have been sold for stud use.

Any Ram sold for stud use will require a transfer which will cost \$2000.

Directions to Sale:

From Dannevirke, get to Weber, about 1km out of Weber turn left onto Tahuokaretu Road, (gravel road).

Travel 8.5km until you come to a T-intersection then turn right onto Birch Road East. Travel 500m , turn left at a Red and Black mail box.
Mt Thomas sign and number 57 at gate.

If you are travelling from Porangahau, turn Right onto Tahuokaretu Road, before you get to Weber.
